

The Archivist's Riddle

1. Used binwalk challenge and it had multiple files.
2. I changed the permissions using chmod +x challenge and ran the exe folder
3. My system restarted, and when i checked it later, there was a new file inside the extracted folder.

- 4.
5. I checked strings challenge.zip | less and got: flag{executing
6. I contacted OC and got the full flag: flag{executing_the_truth}
